

New download method implemented!

Wednesday, 29 April 2009 00:00

We have noticed a slight increase in issues with the downloads lately especially with certain users who did not receive the activation / registration email. We have introduced a new method of downloading instead to solve these issues. To access your downloads, simply click on the link at the footer of the site that says 'Download' or [click here](#) to access the downloads.

All you need to do is to provide the order reference number that you received and the email address used during the sign-up process. Once submitted, it will then bring you to a page which will list down all your available downloads.

This will definitely speed up the purchase ;)
